THE
ALBANY DIRECTORY,

FOR THE YEAR

1864:

CONTAINING A

GENERAL DIRECTORY OF THE CITIZENS,

A

Business Directory,

A RECORD OF THE

CITY GOVERNMENT,

ITS INSTITUTIONS, &c., &c.

ALBANY:
PUBLISHED BY ADAMS, SAMPSON & CO.,
No. 78 STATE STREET,
JUNE 1, 1864.

Entered according to Act of Congress in the year 1864, by ADAMS,
SAMPSON & Co., in the Clerk's Office of the District Court
of the Northern District of New York.

VAN BENTHUYSEN'S STEAM PRINTING HOUSE.

TO OUR PATRONS.

THE first of June brings with it, as usual, a new edition of the City Directory. We think we have this year some reason for satisfaction with our efforts, when we compare the present issue with the first we published of the city in 1857. We also trust they will be appreciated, and the book in all respects found worthy of the endorsement and patronage of every citizen.

When our first edition appeared in 1857 it was generally conceded, both by the press and people, that we then achieved some improvement over preceding numbers, but at that time we were hardly aware of the amount of labor and perseverance required to produce such a work as we now present, and although our continued experience has probably given us peculiar advantages for furnishing a reliable Directory without extra effort, yet we have to this time, and we shall in future, only allow that consciousness to stimulate us on to renewed efforts.

As an advertising medium the Directory has steadily won its way to the front ranks. The cards of the principal business men in the city are now to be found in its pages, and we have good reason to know they are perfectly satisfied with the results.

We have slightly increased the price of the book this year, viz., from \$1.25 to \$1.50, not enough, however, to fully reimburse us for the increased expense of printing, paper, labor, &c. It is our desire to keep the price at as low a standard as possible, and we have adopted the above in the hope that the times may be more favorable another year, and so render it unnecessary to increase still further.

Our thanks are due to our patrons, both advertisers and subscribers, for their many favors, and also to the citizens generally for the courtesy extended to our canvassers.

Commences at the intersection of Spruce and Eagle streets; thence west along the center of Spruce street to Lark street; thence along the center of Lark street to Clinton avenue; thence westerly along the center of Clinton avenue to the west line of the city; thence along the west line of the city to the south line of the city; thence along the south line of the city to Eagle street; thence along the center of Eagle street to the place of beginning.

WARDS—Election Districts and Boundaries.

FIRST WARD, Two Election Districts. All that part of the ward lying north of the center of Schuyler street to Clinton street, all east of Clinton street to Catharine street, all south of Catharine street to the western boundaries of the ward, shall be known as the Northern District; all that part of the ward lying south of the center of Schuyler street, to Clinton street, all west of the center of Clinton street, to the center of Catharine street, all south of the center of Catharine street to the western boundaries of the ward, shall be known as the Southern District.

Boundary.—Beginning at a point where the south bounds of the city intersect the west line of Rensselaer street, thence running north along the east bounds of the city to a point opposite the center of Arch street; thence westerly through the center of Arch street to the center of Grand street; thence northerly through the center of Grand street to the center of Arch street from the west; thence westerly through the center of Arch street to the center of Eagle street; thence southerly through the center of Eagle street to the south bounds of the city; thence easterly along said south bounds to the place of beginning.

SECOND WARD, Two Election Districts. All that part of the ward lying west of the center of Pearl street, is called the Western District; east to the center of Pearl street, the Eastern District.

Boundary.—Beginning at the intersection of the center of Arch street with the east bounds of the city, and running thence northerly along the said east bounds of the city to a point opposite the center of Herkimer street; thence westerly along the center of Herkimer street to the center of Pearl street; thence southerly along the center of Pearl street to the center of Westerlo street; thence westerly along the center of Westerlo street to the center of Grand street; thence northerly along the center of Grand street to the center of Elm street; thence westerly along the center of Elm street to the center of Eagle street; thence southerly along the center of Eagle street to the center of Arch street; thence easterly along the center of Arch street to the center of Grand street; thence southerly along the center of Grand street to the center of Arch street from the east; thence easterly along the center of Arch street to the east bounds of the city and place of beginning.

THIRD WARD, Two Election Districts. All that part of the ward lying east of the center of Green street, is called the Eastern District; west of the center of Green street, the Western District.

Boundary.—Beginning at a point in the easterly bounds of the city opposite the center of Herkimer street, and running thence northerly along said east bounds to a point opposite the center of Hamilton street; thence westerly along the center of Hamilton street to the center of Eagle street; thence southerly along the center of Eagle street to the center of Elm street; thence easterly along the center of Elm street to the center of Grand street; thence southerly along the center of Grand street to the center of Westerlo street; thence easterly along the center of Westerlo street to the center of Pearl street; thence northerly along the center of Pearl street to the center of Herkimer

street; thence easterly along the center of Herkimer street to the east bounds of the city and place of beginning.

FOURTH WARD, Two Election Districts. All that part of the ward lying east of the center of South Pearl street, is called the Eastern District; west of the center of South Pearl street, the Western District.

Boundary.—Beginning at a point in the east bounds of the city, opposite the center of Hamilton street, and running thence northerly along said east bounds to a point opposite the center of State street bridge; thence westerly through the center of State street bridge and State street to the center of Eagle street; thence southerly along the center of Eagle street to the center of Hamilton street; thence easterly along the center of Hamilton st. to the east bounds of the city and place of beginning.

FIFTH WARD, Two Election Districts. All that part of the ward lying east of the center of North Pearl street, is called the Eastern District; west of the center of North Pearl street, the Western District.

Boundary.—Beginning at a point in the east bounds of the city opposite the center of State street bridge, thence running northerly along said east bounds to a point opposite the center of Columbia street bridge; thence westerly along the center of said bridge and of Columbia street to the center of Pearl street; thence northerly along the center of Pearl street to the center of Canal street; thence westerly along the center of Canal street to the center of a street thirty-six Ryndland feet in width, and leading from Canal to Spruce streets; thence southerly through the center of said street to the center of Spruce street; thence easterly through the center of Spruce street to the center of Eagle street; thence southerly through the center of Eagle street to the center of State street; thence easterly along the center of State street and of the State street bridge to the east bounds of the city and place of beginning.

SIXTH WARD, One Election District.

Boundary.—Beginning at a point in the east bounds of the city, opposite the center of Columbia street bridge, and running thence northerly along said east bounds to a point opposite the center of Lumber street; thence westerly along the center of Lumber street to the center of Ten Broeck street; thence southerly along the center of Ten Broeck street to the center of Clinton avenue; thence easterly along the center of Clinton avenue to the center of Chapel street; thence southerly along the center of Chapel street to the center of Canal street; thence easterly along the center of Canal street to the center of Pearl street; thence southerly along the center of Pearl street to the center of Columbia street; thence easterly along the center of Columbia st. and of the Columbia st. bridge to the east bounds of the city and the place of beginning.

SEVENTH WARD, Two Election Districts. All that part of the ward lying east of the center of Broadway, is called the Eastern District; west of the center of Broadway, the Western District.

Boundary.—Beginning at a point in the east bounds of the city, opposite the center of Lumber street, and running thence northerly along the east bounds of the city until it strikes a point opposite a red cedar post with brick

around it, standing on the west bank of the Hudson river which post is distant twenty-two chains and thirty-six links from the southeast corner of the store-house of Stephen Van Rensselaer, on a course north forty degrees and twenty minutes west; thence westerly to the said cedar post; thence north forty-eight degrees west to the west bounds of the late town of Colonie; thence southerly along said west bounds to the center of Lumber street; thence easterly along the center of Lumber street to the east bounds of the city and place of beginning.

EIGHTH WARD, Two Election districts. All that part of the ward lying north of the center of Clinton avenue, is called the Northern District; south of the center of Clinton avenue, the Southern District.

Boundary.—Beginning at the intersection of the centers of Canal and Chapel streets; thence running northerly along the center of Chapel street to the center of Clinton avenue; thence westerly along the center of Clinton avenue to the center of Ten Broeck street; thence northerly, along the center of Ten Broeck street to the center of Lumber street; thence westerly along the center of Lumber street to the west bounds of the late town of Colonie; thence southerly along said west bounds to the center of Clinton avenue; thence easterly along the center of Clinton avenue to the center of Lark street; thence southerly along the center of Lark street to the center of Spruce street; thence easterly along the center of Spruce street to the center of a street leading from Spruce to Canal street of thirty-six Rynland feet in width; thence northerly along the center of said street to the center of Canal street; thence easterly along the center of Canal street to the place of beginning.

NINTH WARD, Three Election Districts. All that part of the ward lying east of the center of Dove street, is called the Eastern District;

west of the center of Dove street, and east of the center of Snipe st., the Middle District; west of the center of Snipe st., the Western District.

Boundary.—Beginning at the intersection of Eagle and State streets, and running thence northerly along the center of Eagle street to the center of Spruce street; thence westerly along the center of Spruce street to the center of Lark street; thence northerly along the center of Lark street to the center of Clinton avenue; thence westerly along the center of Clinton avenue to the west bounds of the late town of Colonie; thence southerly to the south side of Clinton avenue; thence westerly along the north range of the city to the west bounds thereof; thence southerly along said west bounds to the center of Lydius street; thence easterly along the center of Lydius street to the center of Main avenue; thence northerly through the center thereof to the center of State street; thence easterly along the center of State street to the place of beginning.

TENTH WARD, Three Election Districts. All that part of the ward lying west of the center of Dove street, is called the Western District; east of the center of Dove street, and west of the center of Hawk street, the Middle District; east of the center of Hawk street and west of the center of Eagle street, the Eastern District.

Boundary.—Beginning at the intersection of the center of Eagle street with the south bounds of the city, and running thence north through the center of Eagle street to the center of State street; thence westerly through the center of State street to the center of Main avenue; thence southerly through the center of Main avenue to the center of Lydius street thence westerly along the center of Lydius street to the west bounds of the city; thence southerly along said west bounds of the south bounds of the city; thence easterly along said south bounds to the place of beginning.

THE OLD ESTABLISHED

PEOPLE'S COAL YARD

Has Removed to 831 Broadway,

WHERE ALL THE VARIOUS GRADES OF

COAL AND WOOD

May be Purchased at the Lowest Market Rates.

T. C. RAFFERTY, Proprietor.

SURGERY FOR THE EYE AND EAR.

Notice.

Dr. LISTON offers his services to perform every operation upon the Eye and Ear which the science of the old and New Worlds has shown to be advisable, and will use all new and efficient instruments and remedies as used in the best Institutions in Germany, France, England, and in this country.

Cross Eyes Straightened.

Cataracts Removed.

Artificial Pupils Formed.

Inflamed Eyes Cured,
and their cause removed.

In-Turning Eye-Lids
are often caused, by rubbing the eye-winkers upon the eye; we have restored sight that had been lost for thirty years from this cause, and constant suffering at once removed.

Out-turning Eye-lids
are at once cured, and original beauty restored to the face.

Diseased Lids
thickened along the edges, red, casting off scales, or gummed together, we cure readily.

Granulated Lids,
in their worst form, entirely cured.

Watering, or
"Weeping Eyes," speedily cured.

TUMORS
in every form removed or treated.

Ophthalmoscopic
examinations of the Eye,
&c., &c., &c.

Dr. LISTON.

Entered according to Act of Congress.

Catarrh, Polypus AND THROAT.

ALBANY GENERAL INFIRMARY, 115 Grand Street.

Established, A. D., 1858.

DEAFNESS, CATARRH,

Discharges from the Ear, Noises in the Head, and all the various
Acute and Chronic Diseases of the Ear and Throat.

ARTIFICIAL EYES.

The Largest and most Complete Assortment in the United States.

Dr. LISTON, Surgeon,
Albany General Infirmary.

Will be at the Infirmary on the last two days of each month.

REFERENCES.

We, the undersigned, being personally acquainted with Dr. Liston, of Albany, take particular pleasure in recommending him to the patronage of the public as a gentleman worthy of every confidence, and a surgeon in whose judgment and skill they can fully rely:

OFFICERS:

DEAN RICHMOND, President,

R. M. BLATCHFORD, Vice President,
J. V. L. PRUYN, Treasurer and General
 Counsel,
E. D. WORCESTER, Assistant Treas.,
ROBERT L. BANKS, Secretary,
C. VIBBARD, General Superintendent,
GEO. E. GRAY, Chief Engineer,

JULIUS A. SPENCER, Assistant Sup't,
E. FOSTER, Jr.,
THOMAS WALLACE,
Z. C. PRIEST,
WM. G. LAPHAM,
H. W. CHITTENDEN,
S. DRULLARD, Gen'l Freight Agent.

THE NEW YORK CENTRAL RAILROAD, running the entire length and through the most populous part of the State, forms one of the greatest, oldest and best managed links of communication between the East and the West.

It has two Eastern termini one at Albany and the other at Troy, connecting at Schenectady and running thence West through Utica, Rome, &c., to Syracuse, from which point, there are two roads running to Rochester, known as the "Direct Road," via Fort Byron, Lyons, &c., and the "Old Road," via Auburn, Cayuga, Geneva, Canandaigua, &c. From Rochester there are also two roads running West, one through Lockport, &c., to Niagara Falls, and the other through Batavia, &c., to Buffalo. Also, a branch commencing at Buffalo and running along the banks of the Niagara River, through Tonawanda and the Village of Niagara Falls to Lewiston; and likewise a branch from Tonawanda to Lockport.

At either ALBANY or TROY, passengers for New York and intermediate places connect with the Hudson River Railroad, Harlem Railroad, (or during the season of navigation) with the North River Steamers. Passengers for Pittsfield, Springfield, Worcester, Boston, Hartford, New Haven, Providence, and intermediate places, connect with Western R. R. and its connections. Passengers for Saratoga Springs, Rutland, Burlington, Montreal and all places North, also connect by Railroad, from either Albany, Troy or Schenectady.

Passengers for Sharon Springs, leave the Central Railroad at Palatine Bridge, and go from there by stage. Those for Cherry Valley, Cooperstown and places South, leave at Fort Plain. Those for Trenton Falls leave at Utica and go by Railroad. Those for Watertown and places North connect with the Rome & Watertown R. R. at Rome.

At SYRACUSE the Central R. R. connects with the S. & B. R. R., running to the Erie R. R. at Binghamton. And with the O. & S. R. R., running North to Oswego.

At CANANDAIGUA with the E. C. & N. Falls R. R., running to the Erie R. R. at Elmira.

At ROCHESTER with the B. C. & N. Y. R. R., running to the Erie R. R. at Corning. And with Steamers for all ports on Lake Ontario.

At BUFFALO with Steamers on Lake Erie (during the season of navigation). And with the Lake Shore R. R. to Erie, Cleveland, Sandusky, Toledo, and thence to Chicago by Michigan Southern R. R.

At NIAGARA FALLS passengers connect with the Great Western R. R. (Canada) to Detroit, and from thence to Chicago by Michigan Central R. R.

At LEWISTON & CHARLOTTE passengers connect (during the season of navigation) with Steamers for Toronto and all ports on Lake Ontario.

DISTANCES FROM ALBANY.

ALBANY AGRICULTURAL WORKS

ALBANY

NEW YORK

FORBES

ARTIST N.Y.

EMERY BROTHERS,

62 & 64 State St., ALBANY, N. Y.

ALBANY AGRICULTURAL WORKS, WAREHOUSE AND SEED STORE, EMERY BROTHERS,

Nos. 62 & 64 State Street, Albany, N. Y.

PATENTEES AND MANUFACTURERS OF

EMERY'S PATENT CHANGEABLE RAILROAD HORSE POWER.
ALSO LEVER POWERS,

For Four, Six and Eight Horses, of new and superior construction, together with a great variety of labor-saving
AGRICULTURAL MACHINERY.

ALSO

General Dealers in Implements and Seed.

HORSE POWERS.

It has ever been the aim of the proprietors to make none but the first class of work, and always use the best materials and workmanship. In the construction of their Horse Powers they have endeavored to adapt them most readily and advantageously to the great variety of purposes required by the Farmer and Mechanic. The same considerations have guided them in the construction and adaptation of the various Machines made and sold by them, and to be driven by the power, in calculating their various velocities, forces, pulleys and gears, required to enable them to operate in their maximum efficiency, which is the great secret of their success.

THRASHING MACHINES

WITH

SEPARATING AND CLEANING ATTACHMENT.

Combined and adapted for all kinds and conditions of grain, &c.

This machine is the greatest success in its line yet produced. It can be operated with two horses as easily, and with equal results, as the ordinary thrashing machine without the cleaning attachment; while its capacity adapts it equally well to the force of four or six horses.

It will thrash perfectly clean from the straw, and clean the grain for market without any wastage in any part of the process.

It is complete in one frame. Very compact and simple—runs light, still, and without any concussion from its moving parts. It has been very extensively used during the past two harvests, and its superiority over any others in market established beyond question, and considering its capacity and cost of construction it is at least fifty per cent cheaper than any other similar machine in use.

CLOVER MILLS AND CLEANERS.

This is a new Machine comparatively, and is believed to be one of the best Machines for the purpose ever made; can be driven by one, two, or more horses at a high or slow velocity, and do equally good work, and with wet and bad, as well as good condition, of the clover chaff. It cleans the seed and delivers it fit for market at the same operation.

STALK AND STRAW CUTTERS

For Horse Power—a strong and durable Machine, and adjustable to any length of cut.

SAWING MILLS,

With Circular Saws for Cutting Fire-wood, Splitting Boards, Plank, &c., for fencing and building purposes; also with Machine Cross-cut for cutting Logs for Wood, Shingles, Staves, &c.; also Mills for making Shingles.

FEED MILLS

For Grinding all kinds of Grain for Feeding, as well as corn in the ear when desired. Several sizes, and with or without Sieves and Bolts attached.

CIDER MILLS

For Power and Hand use, with and without Press attached. These Mills and Presses are of a superior style and utility to any others in use.

COTTON GINS

WITH

COTTON LINT CLEANER AND CONDENSER.

Cotton Gins with Improved Feeding Hoppers, with 30 to 100 Saws, calculated for one to eight horses. These are superior in finish and adaptation to the wants of the Cotton Grower, to anything of the kind before offered to the public.

The Lint Condenser is an attachment suited to any ordinary Cotton Gin; it receives the lint as it is discharged from the gin, condenses it and delivers it compact, ready for the press at one and the same operation, and at the same operation cleanses it from all earthy matter, as sand, dust, &c. It dispenses with the necessity of any lint room and large buildings, as the Gin may be equally as advantageously used in the field as the grain thrasher, and when used in buildings it requires no more additional room than the size of the Gin itself occupies. It is also a perfect safeguard against fire, as it is impossible for burning lint to pass through the machine without the fire being extinguished in its passage, thus making this Cotton Gin with its condenser fire-proof. They have been extensively used in Georgia the past two crops, and the cotton made by them has commanded an advanced price over that ginned by the best machines in use.

AGRICULTURAL IMPLEMENTS

Constantly on hand, embracing a large and selected assortment of Plows, Harrows, Cultivators, Dog Powers, Churns, Cheese Presses, also Forks, Hoes, Shovels, &c., always on hand at the lowest manufacturer's terms.

ILLUMINATED CATALOGUE.

The Proprietors have completed their new Catalogue the most complete and beautifully illustrated work ever published by any manufacturer, embracing a great number and variety of finely executed and carefully prepared

Illustrations and Descriptions,

together with ample references and indexes as well as the Prices, Terms of Sale, Weight, Cubic Measurements, Capacity, Directions for use, Durability and Warranty of their

Machinery, Implements, and Seeds.

On receipt of three cents in stamps to prepay postage, it will be sent to all applicants. Local Agencies solicited for the sale of the above Machines.

R. GROOM, Agent.

NO. 45 CHURCH STREET, ALBANY, N. Y.

The following testimonial was received from PAUL A. SABBATON, Supt. Albany Gas Light Company. This is only one of the many equally flattering testimonials in my possession, showing the superiority of these scales over all others.

In the fall of 1855, I purchased of Mr. R. Groom, for the use of the Albany Gas Light Company, a 5000 lb. Dormant Warehouse Scale of his manufacture. In the following spring, that having given good satisfaction, I purchased a four ton hay scale of the same manufacturer. The next fall I purchased a six ton hay scale of Mr. Groom, and subsequently, another warehouse scale; all of which have given perfect satisfaction. I consider them as having no superior, if indeed equal, in the market.

PAUL A. SABBATON, Supt. Albany Gas Light Co.

THE COURSE OF STUDY
Is planned with special reference to a Solid, Useful and Symmetrical
EDUCATION.

ALBANY YOUNG LADIES' INSTITUTE,
No. 4 HIGH STREET,
(Nearly Opposite the Capitol.)

The Academic year commences the First Wednesday of September, and is divided into four quarters, which commence respectively on the 2d of September, 4th of November, 27th of January, and 6th of April.

The course of studies is designed to be thorough and practical, and to embrace all the branches of Mental, Moral and Natural Science, which are taught in any of our Academies. Instructions are given in Music, Drawing, Painting and the Languages.

J. SKERRITT, Principal.

FEMALE ACADEMY.

This is one of the oldest institutions for the education of females in this country. Its graduates and Pupils, many of whom have enjoyed its advantages from the very commencement of school life, are to be found in all parts of the land, and adorn the highest social positions.

The Trustees have spared no pains or expense in furnishing it with the most approved and complete appointments, and with a corps of Teachers believed to be unsurpassed in any similar institution.

In addition to its regular course of English studies, facilities are afforded for the acquisition of every accomplishment belonging to a liberal culture and a complete education.

GYMNASTIC EXERCISES

Are daily practiced under the direction of a lady who devotes her whole time to the Department of Physical Education.

MUSIC.

Further information, circulars, &c., can be obtained of the Principal, EBEN S. STEARNS; at the Academy in North Pearl Street, or of any of the Trustees.

INTERIOR VIEW.—The first at the right is the Railroad Steamboat and Freight Office. The next is the National Mercantile College Bank. Still on to the right is the Forwarding, Express and Commission Office, To the extreme left appears the Exchange, Insurance and Brokerage Office. The next and last is the Jobbing, Collection and Post Office.

Attention is called to the unrivalled facilities of the **ALBANY AND TROY COMMERCIAL COLLEGES.** They are attracting much attention on account of the element of **BUSINESS PRACTICE.** Young men are trained **PRACTICALLY** as well as **THEORETICALLY** by passing through first **THEORY**, then through the Jobbing, Commission, Railroad and Banking Houses. They handle Money, Merchandise, and compile original sets of books, and make out all the business papers involved. What more could be done in the actual business world? These schools are already celebrated for their thoroughness and efficiency.

Young men by attending these Schools will obtain a sound **THEORETICAL** and **PRACTICAL** business education. Business men and others are invited to call and examine our facilities for Commercial instruction.

SUPERIOR ALBANY PALE, BROWN, AMBER

ALES,

XX AND PORTER.

Analytical Laboratory,

ALBANY MEDICAL COLLEGE, May 2d, 1859.

I have made careful chemical examinations of several samples from different brewings of the article known as "McKNIGHT'S MALT WINE," and find it to be, as represented, a liquid containing nothing but the fermented extract of malt and hops. The different specimens were found to be nearly uniform in composition—the slight difference observed being principally in the amount of alcohol present, owing probably to the varying length of time that had elapsed since the brewings were made.

The Malt Wine examined contained no excess of saccharine matters, such as sugar or honey (as is often the case with similar articles), and which have the effect to mask, to a more or less considerable extent, the peculiar flavor of the hop, and at the same time to diminish the medicinal value of the malt liquors in which they are found. The amount of alcohol contained in the "MALT WINE" is considerably greater than is generally found in American Ales. From the examinations I have made, I am satisfied that the "Malt Wine" is made from carefully selected barley and hops, and is skillfully brewed; that in point of purity, and all desirable qualities, it is fully equal to the best imported ales. As such I can confidently recommend it to the public as an agreeable beverage, and to Physicians as a desirable article for medicinal use.

A Policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family.—*Benjamin Franklin.*

A Policy of Life Assurance is always an evidence of prudent forethought; no man with a dependent family is *free from reproach* if not Assured.—*Lord Lyndhurst.*

There is nothing in the commercial world which approaches, even remotely, to the security of a well-established and prudently-managed Life Insurance Company.—*Professor De Morgan.*

There is no more advantageous or secure form of investment than a Life Policy in a Mutual Company. In the NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY it is the best investment that can be made; for, under all circumstances, you get good interest for outlay of premium paid, and in case of sudden or unexpected death, the legal representatives of the party insured are largely the gainers.

Cash Assets, Jan. 1st, 1864 - - - \$3,000,000.
Last Cash Return [now being paid]. 750,000.
40 PER CENT IN CASH PAID TO ALL INSURED.

This Company, established in Boston, Mass., in 1813, is the oldest and most reliable wholly Mutual Life Insurance Company in the United States, and has been uniformly successful, having always made large returns in cash to all the Policy-holders. Last cash return, just declared, and now being paid, 40 per cent., amounting to \$750,000, and leaving a large surplus besides.

It is strictly a benevolent institution for mutual protection, entirely beneficent in all its workings and tendencies, and is an excellent form of investment.

By the last report of the Insurance Commissioners, the surplus of Assets *over* liabilities was proportionately greater than any Life Insurance Company in the United States. Expenses proportionately "*less*" than any other Company.

This Company, being purely mutual, insures at the lowest possible rates; and if the premiums paid exceed the *actual cost*, the surplus is returned to the parties insuring.

Every fifth year, at the time of declaring the return to members, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time, and the surplus funds are divided *pro rata* among all the insured. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

Insurance may be effected for the benefit of married women, beyond the reach of their husbands' creditors. Creditors may insure the lives of debtors.

Parties at a distance may insure from blanks, which will be supplied and forwarded free of expense.

Printed Documents of an interesting character, showing the benefits of the Mutual plan, and the advantages generally of Life Insurance that this Company has to offer, supplied gratis, or forwarded, free of expense, by addressing

JOHN HOPPER, Agent & Attorney for the Co.,

110 BROADWAY, cor. Pine st., New York City.

BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established, that they are no longer matters of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from reproach if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more improvident is he who refuses to insure his life? Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans, are protected from the husbands' creditors. *The question is not whether one can afford to insure, but rather whether he can afford not to insure.*

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

There are many other advantageous uses of Life Insurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them, to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life, and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy, and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A systematic adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits; but it does more. What is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, binds himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say, that in a majority of cases the money saved to deposit in a Life Institution, *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes

a means of support when everything else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain*; and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat themselves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to learn lessons of mortality. 'Tis the burden of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of \$2,000, and for that purpose deposits annually \$50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays \$50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving \$2,000 to his family *whenever* he dies—in six months or twenty years. Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question, it will be necessary to explain, briefly, the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

Joint Stock Companies issue at fixed rates, the *profits* being wholly divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

Mixed Companies are also *Joint Stock* Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate share in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in principle, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No *Mutual* Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In *Mutual* Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A *Mutual* Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the *Mixed* companies. This plan of operation insures the applicant at the *lowest possible premium*, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the *Stock* companies, and only partially so with the *Mixed* companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a *Mutual* company, and had no limit as to its expenses. He says: "Purely *Mutual* Life Insurance Companies have been proved, by experience, to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely *Mutual* Company, and has made four distributions of surplus funds (1848-1853, 1858, and 1863) in *cash*, amounting to OVER \$1,500,000. It now has a well invested fund of \$3,000,000, which is much more than sufficient to meet all possible contingencies and make a large return to all the insured besides.

The New England *Mutual* Life Insurance Company do not pay their dividends in scrip, but always in *CASH*. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against; and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) become forfeited. The cash distribution in 1863 amounted to \$750,000.

Its *standing* and *economy* are unequalled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company FIRST in *standing*, i. e., in its ratio of

value to liability, and *FIRST* in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent. ! This is the *oldest* Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its Directors are well known to community as men of integrity, sagacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

 The New England Mutual Life Insurance Company has deposited with the Comptroller of the State of New York, \$100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late KRIS CHRYSTE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy upon fair terms*, if application is made for that purpose before it is forfeited.

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!

A good and popular form of policy, and one much in vogue, is a policy for life, the whole premium being paid in ten annual installments (which installments may be paid quarterly, or otherwise); and if, before the expiration of the ten years, the payments are discontinued, a paid-up policy will be given for an amount proportionate to the premiums paid. On this form of policy a dividend is payable during the whole life of the insured. This form of policy enables the insured to make all the payments due on the policy in the prime of his life, thus guarding against future misfortune.

TAKE NOTICE.

 A party out of the city desiring to insure, may go before a respectable physician to be examined, and fill up the questions in the application with plain answers, yes or no, as the case may be. The doctor will also fill up the medical certificate on the application, and forward the same to this office, and I will send him the usual fee, upon receipt of the application, even if the risk should not be accepted by the Company.

Any further information will be promptly given, and blanks forwarded free of expense when desired.
